PROFILE

Avid learner, eager to pick up new skills to solve new problems in new ways. Love digging into code and seeing real time progress and improvement. Enjoy working with others to reach collaborative goals.

EDUCATION

Indiana University Southeast, New Albany, IN

Graduation: May 2028

GPA: 3.97 Dean's List

Bachelor of Science in Computer Science Concentration: Math and Science

Minor: Entrepreneurship

EXPERIENCE

Solo Developer for a SaaS Product

Coachm LLC

2023 - Present

- Created a Rails + PostgreSQL player development platform for private coaches that handles contacting clients, scheduling, session logging, auth for coaches and clients within organizations.
- Based on coaching experience, envisioned and created a player management app for private coaches. Programmed a full-stack application using Ruby on Rails.
- Integrated subscription billing through Stripe API and webhooks.
- Launched and hosted with Fly.io utilizing a PostgreSQL database.
- Added mobile version utilizing Progressive Web App features.

Soccer Coach / Referee

Skillability Soccer Training / US Soccer

2018 - Present

- Developed and planned individual training sessions based on player skill, position, and needs aimed at teaching new skills, building confidence, and increasing performance.
- Worked as independent contractor, officiating games and tournaments from the U8-U17 level, handling conflicts between parents, coaches, and players during games.

PROJECTS

github.com/andermiah/blockness-monster

A simple blockchain implementation with HTTP networking. Run multiple nodes on a local network that form a peer-to-peer chain.

github.com/andermiah/echo

Live captions in the browser, powered by the Web Speech API. Speak and see your words in real time.

github.com/andermiah/linkin

Bundle multiple URLs into a single shareable link. One click opens all the tabs. No account, no server, no tracking.

SKILLS

Shipped with: Ruby | Rails | PostgreSQL | JavaScript | HTML/CSS | Git | Stripe API | Fly.io

Familiar with: Python | Assembly | C++ | C# | Golang | agentic coding via Claude Code
